About Sweet Junkie

Established in 2006, Sweet Junkie is a fine example of a business partnership between two people with very different skill sets, but both with the same desire for sweets!

Sweets are a fun food for all ages to enjoy - and we think that Sweet Junkie caters for everybody. We noticed a lot of websites popping up selling sweets to select audiences, for example 'old fashioned' sweet shops selling sweets that are no longer readily available. These are great so we put an old fashioned section on the site.

What we wanted to offer was a website which caters for all ages and sell sweets and chocolate for everybody- From teenagers to grandparents we have the fix for you!

We also noticed websites selling sweets in a quarter of a kilogram, all of our sweets are sold in 100g, so you will find our prices very reasonable. We want you to try as many sweets as possible for your money, so why not try something new.

We think that our website is the most user friendly and fun sweet shop online and we had our customers in mind during every step of the design. However if there are any improvements you think we could make please let us know.

Sweet Junkie Limited.
